Dr. Krista Danielle Yu is an associate professor and research fellow in the School of Economics of De La Salle University. Her research activities focuses on the development of quantitative models for disaster risk and vulnerability analyses, as well as on the economic impact of natural disasters. In 2016, Dr. Yu was recognized by Thomson Reuters as the Philippines' Promising Star in Economics and Business for producing world-class research in her field. In 2017, Dr. Yu received the National Academy of Science and Technology Outstanding Young Scientist Award in the field of Economics.

### About this webinar

How will the Philippine economy recover after the COVID-19 pandemic? This session will discuss models for assessing the impact and identifying vulnerable sectors of the economy. This will allow policymakers to develop strategies for improving economic performance after the pandemic.
