

Dear Authors,

Have the chance to present your research at the **PAASE 2018: Volunteerism to Promote Philippine Science, Engineering and Innovation** poster competition. Poster presentations are an effective way to expand your scientific network and to communicate your research to colleagues by facilitating informal discussions between the presenters and the audience.

A limited number of fellowship grants will be awarded to individuals based on the quality of the abstract submitted as reviewed by the fellowship committee. Attendees selected for a fellowship grant will receive a fully subsidized registration fee.

Please ensure the readability of the poster from a distance of 2 meters. (Please avoid using tarpaulins).
